

# *Beef is Sweet*

## Beef By-Products Found in Sweets

Beef provides us with many nutrients to help keep our bodies healthy. It provides us with protein, iron, zinc, and B-12 just to mention a few. Every part of the beef animal is used for all types of products. Delicious meat, medicines, cosmetics, clothing items, tires, materials used for road construction and even sweets can be made using by products provided by a beef animal. Jellybeans, marshmallows, Life Savers, chewing gum, Fruit Roll Up's, Tootsie Pops, Toaster Tarts, Milky Ways, and boxed cake mixes all are made with beef by-products. Let us show you how Sweet Beef is with our 30 minute presentation.

Grades : PreK- 5th Grade (30 Minutes)
