**The state of California** has been a provider of fresh wholesome food for all of the world. We have the ability in our state to help keep us healthy.

One complete food that provides us with all the necessary nutrients we need to stay healthy is the delicious **cheeseburger**.

All the nutrients we need are found in this food product. In fact all the ingredients found in a cheeseburger are grown in our state, California.

**Allow us to share the journey of where the wholesome food in the cheeseburger is grown in the state of California that helps keep us healthy.**
