

# Wow That Cow!

All the products we get from cattle.

## Wow That Cow

Students are introduced to all the products we use or consume that come from a beef animal. From hamburgers to lipsticks and tires each part of the beef animal is used. Just like the Plains Indians used all parts of the buffalo to survive, we too do not let any part of the beef animal go to waste. A competitive relay game concludes the lessons with a beef by-product sample for each student.

Grades: 3rd - 8th (30 minutes) (No Fee)
